

Education

- 2028 **PhD in Applied Mathematics**, *Centre de mathématiques appliquées, École polytechnique*, Palaiseau, France
- 2024-2025 **Master Mathématiques de la modélisation**, *Sorbonne Université*, Paris, France
- 2021-2025 **Engineer diploma**, *École polytechnique*, Palaiseau, France
- 2019-2021 **Classes préparatoires MPSI-MP***, *Lycée Louis-le-Grand*, Paris, France

Professional experience

- 2025-2028 **PhD student**, *ANANKE Team, Centre de Mathématiques Appliquées, École polytechnique*, Palaiseau, France
- Supervisors: Vincent Calvez and Philippe Moireau
 - Title: Observer based data assimilation for collective models
- 2025 **Intern**, *MEDISIM Team, INRIA Saclay*, Palaiseau, France
- Supervisors: Vincent Calvez and Philippe Moireau
 - Title: Estimation problems for conservative collective models
- 2024 **Intern**, *DISCO Team, Technische Universität Berlin*, Berlin, Germany
- Supervisor: Max Klimm
 - Title: Equilibrium in Bayesian network congestion games: structural properties, optimal signalling and approximation

Teaching

- 2025-2028 **Teachning assistant**, *École polytechnique*, Palaiseau, France
- 2024-2025 **Oral examiner**, *Institution Sainte Marie d'Antony*, Antony, France

Publications

- [1] Martin Morange. The Mortensen observer on the space of probability measures.
- [2] Martin Morange. Quantitative sensitivity analysis for Fokker-Planck equation with respect to the Wasserstein distance.

Talks

- June 2026 **Data assimilation and inverse problems for biomedical problems**, *A multiscale Luenberger observer based on Wasserstein metric for collective motion models*, Nantes, France
- April 2026 **CMAP and CMLS PhD student seminar**, *The Mortensen observer on the space of probability measures*, Palaiseau, France
- March 2026 **Congrès des Jeunes Chercheur.e.s en Mathématiques Appliquées**, *The Mortensen observer on the space of probability measures*, Champs-sur-Marne, France
